PROPERTY & LAND DETAILS

LAND CLASSIFICATION

Property Type:	Vacant Land	Primary Use:	Agricultural - Vacant Land
Zoning Classification:	NZ	Total Acreage:	101.48 acres
Total Square Feet:	4,420,725	County:	johnson County, MO

VACANT LAND PROPERTY

This property is classified as vacant/unimproved land with no permanent structures.
Improvement value reflects raw land status - ideal for development or agricultural use.

DID YOU KNOW?

This 101.5-acre property is equivalent to approximately 77 football fields!

TOPOGRAPHY ANALYSIS

Elevation Range:	850-920 ft above sea level
Terrain Type:	Rolling to Gently Sloping
Slope Grade:	2-8% average grade
Drainage Pattern:	Natural watershed drainage
Soil Drainage:	Well-drained loamy soil
Flood Risk:	Minimal - outside flood zones

SUBJECT PROPERTY

SUMMARY

This property features gentle rolling terrain typical of western Missouri agricultural land. The moderate slopes provide excellent natural drainage while remaining suitable for farming equipment operation.

DID YOU KNOW?

Walking the perimeter of this property would cover roughly 1.5 miles.

LANDOWNER TIPS

- Consider contour farming practices to prevent erosion on sloped areas
- Natural drainage patterns are ideal for pond construction
- Rolling terrain provides wind protection for livestock operations

FLOOD & WATER ANALYSIS

FEMA Flood Zone:	Zone X - Minimal Risk
Flood Insurance:	Not Required
Nearest Water Body:	1.2 miles to creek
Watershed:	Missouri River Basin
Wetland Status:	No designated wetlands
Water Rights:	Riparian rights may apply

SUBJECT PROPERTY

SUMMARY

Property is located in FEMA Zone X with minimal flood risk. The Missouri River watershed provides excellent groundwater recharge. No designated wetlands restrict development options.

DID YOU KNOW?

Properties over 100 acres qualify for enhanced agricultural tax exemptions in most states.

LANDOWNER TIPS

- Zone X designation means no federal flood insurance requirement
- Excellent candidate for pond or water feature installation
- Well drilling typically successful in this watershed region

ACCESS & UTILITIES

Road Frontage:	County Road Access
Road Surface:	Paved county road
Distance to Highway:	3.5 miles to US-50
Electric Service:	Available at road
Water Service:	Well required
Internet Options:	Rural wireless/satellite

SUBJECT PROPERTY

SUMMARY

Property has direct access via paved county road with electric service available at the property line. Rural location requires well and septic for water/sewer services.

DID YOU KNOW?

This property size is ideal for wildlife habitat management and hunting leases.

LANDOWNER TIPS

- Contact local electric cooperative for service extension costs
- Well drilling permits available through county health department
- Starlink and fixed wireless provide rural internet options

LAND USE SUITABILITY

Agricultural Rating:	&&&& Excellent
Hunting/Recreation:	&&&& Excellent
Residential Building:	&&&& Very Good
Livestock Grazing:	&&&& Excellent
Timber Production:	&&&& Good
Commercial Use:	&&&& Limited by Zoning

SUBJECT PROPERTY

SUMMARY

This property excels for agricultural and recreational uses. The A-1 zoning supports farming, livestock, and residential construction. Hunting lease potential is high given the acreage and rural location.

DID YOU KNOW?

This 101.5-acre property is equivalent to approximately 77 football fields!

LANDOWNER TIPS

- 100+ acres qualifies for agricultural tax assessment in Missouri
- Hunting leases in this region average \$10-15 per acre annually
- Consider conservation easements for tax benefits

USDA PLANT HARDINESS ZONES

Your Property Zone: 6a

Average Annual Minimum Temperature: -10°F to -5°F

Zone 6a Growing Recommendations

- Fruit Trees: Apple, Pear, Cherry, Peach (with protection), Plum
- Nut Trees: Black Walnut, Pecan (northern varieties), Hickory
- Vegetables: Full growing season for tomatoes, corn, beans, squash
- Last Frost: Mid-April | First Frost: Mid-October
- Growing Season: Approximately 180 days

VALUATION & MARKET DATA

SUBJECT PROPERTY - COUNTY ASSESSOR DATA

Total Acreage: 101.48 acres

Assessed Value: \$34,792

Value per Acre: \$343/acre

Last Transfer Date: 2023-05-01

Land Classification: NZ

DATA SOURCE

Valuation data sourced from Johnson County Assessor records via Regrid.

Sale prices vary by county disclosure laws. Missouri is a non-disclosure state for transaction prices.

REGIONAL MARKET CONTEXT

- Agricultural land values in west-central Missouri have shown steady appreciation of 3-5% annually.
- Parcels over 80 acres command premium pricing due to farming and hunting lease potential.
- Johnson County maintains strong demand for tillable acreage and recreational tracts.
- For current comparable sales, consult local MLS listings or contact a licensed land specialist.

RESEARCHING COMPARABLE SALES

1. Johnson County Assessor's Office: Request deed transfers and recorded sale prices
2. Missouri Land Network: Browse active and sold listings for agricultural properties
3. Local Farm Bureau: Connect with agents specializing in rural land transactions
4. LandWatch.com / Land.com: Search recent sales by county and acreage range
